

KMBR is a boutique firm of 25+ individuals who believe strongly in the value of public and community architecture. We cherish our diverse culture and matching employee strengths and interests with project roles. We're seeking like-minded, creative people to join our team. We pride ourselves on supporting the long-term aspirations of our employees and creating a fun, innovative workplace. From our office in the heart of Gastown, we provide employees with a competitive salary and benefit plan, flex time, professional development benefit, company-paid social functions and you can also bring your dog.

Intermediate or Senior Technologist

Permanent, Full Time

KMBR gives preference to direct candidates rather than through a recruiter

POSITION OVERVIEW

This position offers opportunities to develop skills in client relationships, team management, and construction contract administration. The Intermediate or Senior Technologist is involved in all project phases, from pre-design to design development, through production of drawings, construction administration, site review and project close-out.

RESPONSIBILITIES

- Under the direction of the Design Manager, manage or assist in the preparation of construction drawings and specifications, details from sketches, development permit drawings, and building permit applications
- Assist Design Manager in all project phases
- Preparation of presentation materials using 3D software
- Research materials, technical details through library and manufacturers
- Conduct research on sustainable products
- Assist in review of shop drawings
- Assist in preparing specifications

REQUIREMENTS

We foster a workplace that's inclusive and diverse. The right candidate will have:

- A combination of talent and technical skills in design projects combined with the drive to excel
- At least 5 to 10 years of experience within an architectural firm
- Building Science/Architectural Technology diploma (min. 2-year program) or degree or equivalent qualifications
- A high level of proficiency with REVIT and/or detailing
- Construction documentation experience, including coordination and working drawings
- Working knowledge of specifications
- The ability to:
 - coordinate documents with consultants
 - work with ease in a dynamic, fast-paced team environment
 - work well as a team member and independently
 - translate design intent into construction detailing
- Working knowledge of the BC Building Code
- A high degree of attention to detail
- It is an asset to have: LEED, passive house or other similar accreditation or experience, registration with AIBC, and/or experience with education or other institutional projects

To apply, please email a cover letter and your resume and portfolio in PDF format to careers@kmb.com. Your submission will be carefully reviewed in confidence. Only those selected for an interview will be contacted.
